

# Using the WSST to display Addresses on the Map:

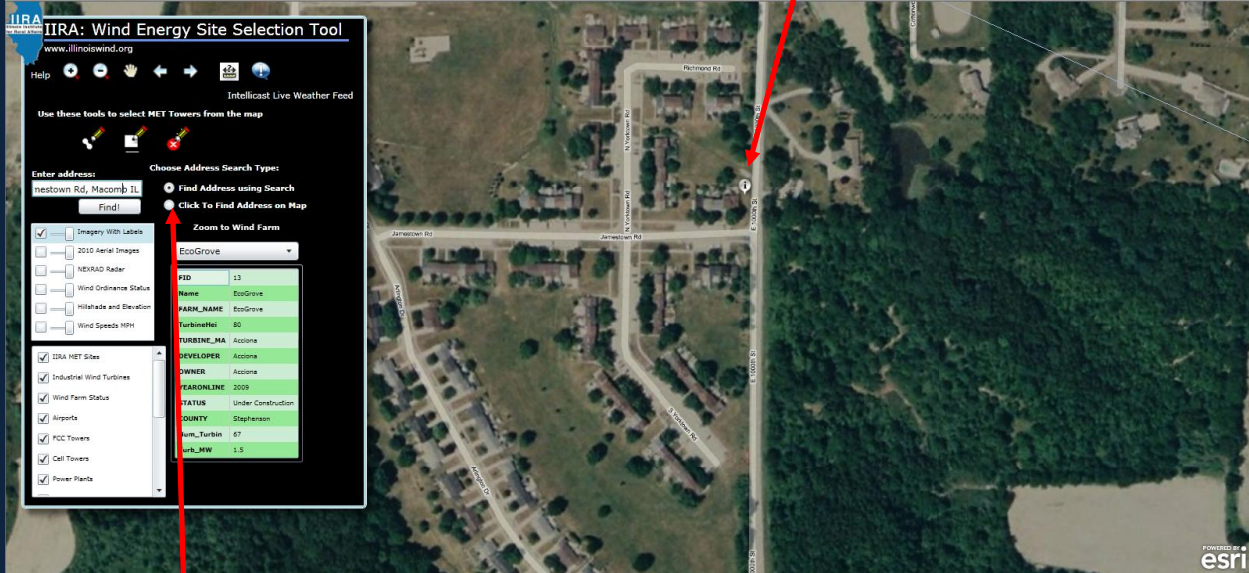

On the Main Menu Screen Type in an Address in this box

Acceptable Input: 340 Jamestown Rd, Macomb IL

Once you've typed in the address click "Find"

The Map will automatically zoom you to your address match

You also have the ability to “Reverse Geo-Code”. Click on the “Click To Find Address on Map” Radio Button

Once this Radio button has been activated click on the map and the application will return the address
